My installation path is here for Windows. C:\Users\ME\AppData\Roaming\Blender Foundation\Blender\2.77\scripts\addons\HOps. On Mac: Right click on ... > open > run as administrator ... > Addons > HOps. Everything is working fine except... HOps I can install it on Windows but not on Mac. I tried running the script from the command line with the --install argument. It installed correctly, but it won't boot in admin mode. How can I make it work on Mac? What have I tried Okay, I finally got it in Win7. I found that the path to the installer depends on how you installed the program (Windows or Mac).
